High performance Water additive for
Fresh potatoes Maker

Phosphate-free + Sulfite-reduced = Sustainable

**MADE
IN
GERMANY**

The product

Orgacure® for Fresh potatoes is an All-in-One wash for food safety, optimal shelf-life and antibrowning of fresh-cut produce, it's economical and made of sustainable resources.

The Orgacure® benefits for business and consumer:

1. Antibacterial protection for reliable food safety, reduced food waste and peace of mind.
2. Shelf-life extension, economical and clean label for transparency and better marketability.
3. Antibrowning with true sensorial and microbial freshness and native taste for greater satisfaction.

Our mission

Responsible food for independent people™

Easy use

Orgacure® Freshcut powder works both cold and warm water and is instant applied

Performance

Stored cooled, Orgacure® washed peeled and cut potatoes stay both sensorial and microbial excellent for about 7 days. The optimal shelf-life is adjustable depending on the task.
